Welcome to e-Health 2018

Whether you are a conference veteran or a first-time attendee, we are delighted to welcome you to the e-Health 2018 conference.

This year's conference is focused on "Celebrate, Grow & Inspire Bold Action in Digital Health" – and showcases the innovation and successes of Canada's digital health journey.

There are so many ways to maximize your time at e-Health 2018:

Be sure to schedule yourself for the many excellent plenary and educational sessions, presented by some of our current and future health leaders.

Mark your calendar to attend the many unique program initiatives such as Hacking Health @ e-Health 2018, the Showcase Theatre and Start Up Zone. Take advantage of the many networking opportunities from the trade show floor and social events, including the Canadian Health Informatics Awards (CHIA) Gala on Monday, May 28.

We hope that you find this year's conference an inspiring and dynamic way to learn, share and connect with your peers. We look forward to spending time with you over the next four days and thank you for joining us at e-Health 2018.

Conference Hosts

Formerly COACH: Canada's Health Informatics Association

Digital Health Canada

www.digitalhealthcanada.com

Digital Health Canada (Formerly COACH: Canada's Health Informatics Association) connects, inspires, and educates the digital health professionals creating the future of health in Canada. Our members are a diverse community of accomplished, influential professionals working to make a difference in advancing healthcare through information technology.

Digital Health Canada fosters network growth and connection; brings together ideas from multiple segments for incubation and advocacy; supports members through professional development at the individual and organizational level; and advocates for the Canadian digital health industry.

Canadian Institute
for Health Information

Institut canadien
d'information sur la santé

Canadian Institute for Health Information (CIHI)

www.cihi.ca

The Canadian Institute for Health Information (CIHI) is an independent, not-for-profit organization that provides essential information on Canada's health systems and the health of Canadians. We provide comparable and actionable data and information that are used to accelerate improvements in health care, health system performance and population health across Canada.

Our stakeholders use our broad range of health system databases, measurements and standards, together with our evidence-based reports and analyses, in their decision-making processes. We protect the privacy of Canadians by ensuring the confidentiality and integrity of the health care information we provide.

Canada Inforoute
Health Santé
Inforoute Santé

Canada Health Inforoute (Inforoute)

www.inforoute.ca

Inforoute helps to improve the health of Canadians by working with partners to accelerate the development, adoption and effective use of digital health across Canada. Through its investments, Inforoute helps to deliver better quality and access to care and more efficient delivery of health services for patients and clinicians.

General Information

Onsite Registration Hours

The registration desk is located in the foyer of the Burrard Room on the Conference Level of the JW Marriott Parq Vancouver and will be open at the following times:

Sunday, May 27	11:00am – 7:30pm
Monday, May 28	7:30am – 4:00pm
Tuesday, May 29	7:30am – 3:30pm
Wednesday, May 30	8:00am – 12:00pm

Name Badge Policy

Name badges will be provided to all delegates and participants upon check in at the registration desk. Please wear your name badge at all times; it is your access to meals, plenary and concurrent sessions, the tradeshow and social events. No badge, no access. **There is a \$50.00 CAD reprint fee** for any lost or misplaced badges. This is to ensure the access to the conference is properly managed.

Information Desk

The Information Desk is located between the Parq Grand Ballroom and the Kitsilano Ballroom. If you require assistance or any information regarding the conference, please see the staff at the Information Desk.

Delegate Bags

Formerly COACH: Canada's Health Informatics Association

Lanyards & Volunteer Shirts

Sponsored by:

Lunches & Receptions

All lunches, breaks and admission to all e-Health 2018 sponsored receptions at the conference are included in the FULL conference registration fees.

Exclusions:

President's Reception (By Invitation Only):

Sunday, May 27	4:30pm – 5:30pm
-----------------------	------------------------

CHIA Gala:

Monday, May 28	7:00pm - 10:00pm
-----------------------	-------------------------

CHIA Gala: The \$25.00 commitment fee will be donated to the Greater Vancouver Food Bank. If you have RSVP'ed for this event your ticket will be included with your badge upon check in at the registration desk.

Dress Code

Casual business attire is recommended for the conference. If attending, you are invited to dress up for the Gala. This is traditionally a black-tie occasion, but in keeping with the tradition of the evening social at e-Health, more casual attire is also welcome.

Speaker Preview Centre

The Speaker Preview Centre is located on the Conference Level. An audio-visual technician will be available to assist with checking your presentation. All presenters are required to submit their slides at least 24 hours prior to their scheduled presentation to ensure compatibility with the conference AV equipment.

Speaker Preview Centre will be open to assist you at the following times:

Sunday, May 27	11:00am – 5:00pm
Monday, May 28	8:00am – 4:00pm
Tuesday, May 29	8:00am – 1:00pm
Wednesday, May 30	8:00am – 12:00pm

Virtual Library

Use your access code found on your name badge to access live streaming and video recording of Keynote Sessions, and PDFs of all conference PowerPoint presentations.

Exams

MAINTENANCE OF CERTIFICATION

Attendance at this program entitles certified Canadian College of Health Leaders members (CHE / Fellow) to **1 MOC Category II credit** for CPHIMS Exam and **0.5 MOC Category II credit** for CA exam towards their maintenance of certification requirement.

Sunday Symposium

MAINTENANCE OF CERTIFICATION

Attendance at this program entitles certified Canadian College of Health Leaders members (CHE / Fellow) to **3.6 Category II credits** for the Sunday Symposium towards their maintenance of certification requirement.

Conference (May 28-30, 2018)

MAINTENANCE OF CERTIFICATION

Attendance at this program entitles certified Canadian College of Health Leaders members (CHE / Fellow) to **9.75 Category II credits** for the conference towards their maintenance of certification requirement.

After the conference, you are responsible for submitting the actual number of credits earned on the CCHL web site in the MOC section.

Patients Included

We are proud to announce that e-Health 2018 is Patients Included.

This means that we are committed to incorporating the experience of patients as experts in living with their conditions while ensuring they are neither excluded nor exploited. For more details on how e-Health 2018 has satisfied all five criteria as identified in the Patients Included charter, visit www.e-healthconference.com/program/patient-accreditation

Conference Evaluation Survey & Certificate of Attendance

We value your feedback. A Conference Evaluation Survey will be available as of Wednesday, May 30. The link will be sent via email. A Certificate of Attendance can be downloaded upon completion of the Survey.

Complete the Survey for a chance to win one of three 2019 e-Health conference registrations!

Hackathon @ e-Health 2018

Hacking Health Vancouver Hackathon @ e-Health 2018

HACKING HEALTH

Patients Included in Connected Care

Hacking Health is partnering once again with the e-Health 2018 Conference to include patients in a hackathon set to tackle the pressing healthcare issue of chronic disease management. According to the Public Health Agency of Canada, three out of five Canadians aged 20 and older have a chronic disease, and 67% of all deaths per year are caused by four major chronic diseases (cancer, diabetes, cardiovascular and chronic respiratory diseases). Participants will work hand-in-hand with patients and clinician experts, building innovative software solutions focused on prevention, home care, and community care!

The challenge will begin with the opening ceremony and project pitches on Sunday, May 27, where the leaders of selected projects will give short pitches explaining the healthcare problems they seek to solve. Participants will also have the opportunity to network with other conference delegates. Teams will then spend the next day and a half designing, building, testing, validating and tuning their prototypes in preparation for the demo competition, working with mentors to refine and improve their solutions. Once the hacking is complete, all teams will be evaluated by an expert panel of judges when the teams present to conference delegates on May 29th. Winners from the final presentations will be announced with awards presented shortly after.

Hackathon Participants, we will support you when you need it, we will feed you often, and we will make sure our partners provide an opportunity to make your projects a reality.

Sunday Symposium

Patient Engagement: Taking it to the Next Level

Patients have a unique perspective as key stakeholders in the health system. Health system planning and delivery organizations are increasingly recognizing the value of engaging patients. As you endeavor to include patients in your own work, what are the best practices to inform your efforts, the pitfalls to avoid, and how do we collectively accelerate our progress? We invite you to learn about this dynamic and evolving field and consider how it applies to your role in digital health.

The symposium program has been designed to enrich your e-Health 2018 conference experience and is relevant to the entire eHealth 2018 community including clinicians, administrators, analysts, vendors, government agencies and regulatory authorities, academics, researchers, students and patients.

Symposium Learning Objectives

The Patient Engagement: Taking it to the Next Level Symposium Program provides attendees with opportunities to:

- Understand the various ways patients engage in the health care system.
- Learn from patients and health care leaders about effective engagement practices and pitfalls.
- Learn how to apply patient engagement best practices in your role.

Program Accreditation

The Symposium program is accredited to allow attending clinicians and health care leaders to earn valuable education credits, as follows: Attendance at this program entitles certified Canadian College of Health Leaders members (CHE / Fellow) to 3.6 Category II towards their maintenance of certification requirement. CPHIMS-CA credential holders are eligible to earn 4 Continuing Education hours to put towards their CPHIMS-CA renewal for attending the Symposium.

Sunday Symposium Program Committee

Digital Health Canada, CIHI and Canada Health Infoway wish to thank their staff and volunteers on the Program Committee for organizing the Sunday Symposium.

Schedule

12:00pm – 12:30pm

Networking Luncheon

12:30pm – 12:40pm

Angela Copeland, Director, Data and Analytics Strategic Initiatives and Governance, Cancer Care Ontario, CA
Bethany Edmunds, Associate Dean, BCIT Computing, British Columbia Institute of Technology, CA
Alexandra T. Greenhill, CEO / Chief Medical Officer, Careteam, CA

8:30am - 10:00am

HS02 A Conversation with CIHI about Modernizing Canada's Data Supply and Access (CIHI Session)
 Granville II Room, Conference Level

- 8:30am HS02.01 Cloud 2021 - New Delivery Architecture and Data Governance**
Stephen O'Reilly, Associate CIO;
Paulo Domingues, Manager, Architecture and Standards, Canadian Institute for Health Information, CA
- 9:00am HS02.02 MODSA (Modernizing Data Supply and Access)**
Greg Webster, Director, Acute and Ambulatory Care Information Services, Canadian Institute for Health Information, CA
- 9:15am HS02.03 Beyond 2021 and Health Data Utility Model**
Brent Diverty, Vice President, Programs; and, **Stephen O'Reilly**, Associate CIO, Canadian Institute for Health Information, CA
- 9:30am Panel Discussion and Q&A**

8:30am - 10:00am

HS03 Driving Access to Care (Infoway Session)
 Cambie Room, Conference Level

- 8:30am HS03.01 Progress on PrescribeIT™**
Bobbi Reinholdt, EVP, PrescribeIT, Canada Health Infoway, CA
- 9:15am HS03.02 Empowering Canadians and Strengthening Health Care Teams: Driving Access to Care**
Lynne Zucker, EVP, Access Digital Health, Canada Health Infoway, CA

Wednesday, May 30, 2018

8:30am - 10:00am

PS05 Making EMR's Work for Physicians and Patients

Fairview III Room, Conference Level
Track: Health Business Process

8:30am PS05.01 Making Multiple Secure Communication Technologies Work for Primary Care Providers
Katie Fong, Jane Williams, Melissa Chang & Stephanie Saull-McCaig, University Health Network, CA

9:00am PS05.02 Effective Supports for EMR Optimization Enhance Use and Patient Outcomes
Jennifer Littlejohn & Darren Larsen, OntarioMD, CA; **David Daien**, Trillium Health Partners, CA

9:30am PS05.03 Regional Integration: Physician Perspectives on EMR Use and Impact
Sadiq Raji, Western University, CA

10:00am - 10:30am

Networking Break

Kitsilano Ballroom Foyer, Conference Level

10:30am - 12:00pm

OS25 Understanding Patient-Centered Care Amidst Digital Health Era

Fairview II Room, Conference Level
Track: Clinical Delivery

10:30am OS25.01 Digital Health Assistants
Barry Billings, Saint Elizabeth Health Care, CA

10:45am OS25.02 Delivering Results as Patients Access Their Online Medical Records
Selina Brudnicki & Lembi Bishop, University Health Network, CA

11:00am OS25.03 Patient Access - Anytime, Anywhere
Sarina Cheng, Sunnybrook Health Sciences Centre, CA

11:15am OS25.04 Effects of a Patient Portal on Satisfaction and Clinic Use
Tim Graham, Alberta Health Services, CA

11:30am OS25.05 Self-Tracking and Adoption of Connected Health Technologies in Canada

Guy Paré, HEC Montreal, CA

11:45am OS25.06 Digital Mergence of Patient and Provider-Generated Health Information
Dale Anderson, HITS eHealth Office (Hamilton Health Sciences), CA

10:30am - 12:00pm

OS26 Expanding the Spread and Scope of Care

Fairview IV Room, Conference Level
Track: Clinical Delivery

10:30am OS26.01 Accelerating the Provision of Comprehensive, Continuous Primary Care in Manitoba
Kim Morrison, Manitoba eHealth, CA

10:45am OS26.02 IBD Dashboard: Providing Quality Care for ALL IBD Patients
Vivian Huang, Mount Sinai Hospital, CA

11:00am OS26.03 A Digital Health Roadmap for First Nations in Ontario
Karl Mallory, Mallory Consulting Ltd., CA

11:15am OS26.03 Mobile Maternity (MoM) a New Kind of Telehealth
Mona Mattei, Centre for Rural Health Research, UBC, CA

11:30am OS26.04 Breaking New Ground for Telehealth Programming
Mona Mattei, Kootenay Boundary Division of Family Practice, CA

11:45am OS26.05 Virtual Emergency Support Service. Evaluation and Lessons Learned
Orpah McKenzie, KO eHealth Telemedicine Services, CA

Wednesday, May 30, 2018

10:30am - 12:00pm

OS27 Disrupting Technology into the Next Decade

Fairview V Room, Conference Level
Track: Technical / Interoperability

10:30am OS27.01 Distributed Consent Management by Blockchain

Edward Brown, Memorial University, CA

10:45am OS27.02 Deep Learning Techniques to Improve Patient Care with Neural Networks

Dan Connors, Allscripts Analytics, US

11:00am OS27.03 The Power of Patient/Provider Messaging: From Human to AI

Anne Weiler, Wellpepper Inc, USA

11:15am OS27.04 Iris Scanners as an Identification Tool for Individuals Experiencing Homelessness

Cheryl Forchuk, Parkwood Institute, CA

11:30am OS27.05 Using Blockchain to Enable Informed Patient Consent for Research

Bruce McManus, PROOF Centre of Excellence, CA; **Daipayan Mukherjee**, Deloitte Inc., CA' as presenter

11:45am OS27.06 Improving Management of Long Stay Patients with Machine Learning Prediction

Patrick Tan, Fraser Health Authority, CA

10:30am - 12:00pm

OS28 Bringing Mental Health to the Forefront

Granville I Room, Conference Level
Track: Clinical Delivery

10:30am OS28.05 A Smart Homes Concept for an Inpatient Psychiatric Population

Cheryl Forchuk, Parkwood Institute, CA

10:45am OS28.02 Physician Adoption of Standardized Order Sets and Electronic Order Entry

Ileen Gladding, Trillium Health Partners, C

11:00am OS28.03 Global Experiences in Building Cognitive Digital Health Systems

Dan Gordon, IBM Canada, CA

11:15am OS28.04 Telemedicine and Its Growing Usage

Sanjiv Gulati, MCSCS, CA

11:30am OS28.01 Development of Mental Health Reporting Framework

Rebecca Comrie, Centre for Addiction and Mental Health, CA

11:45am OS28.06 Insights to Impact: Helping Organizations Use Data for Business Improvements

Justin Au, Centre for Addiction and Mental Health, CA

10:30am - 12:00pm

OS29 e-Health Solutions for Patient Self Management

Granville II Room, Conference Level
Track: Clinical Delivery

10:30am OS29.01 Change Before You Have to...Emerging Models of Care

Margot Wilson, Providence Health Care, CA

10:45am OS29.02 Feasibility of Remote Patient Monitoring for COPD and Heart Failure

Kimberly Ghaney, Eastern Health, CA

11:00am OS29.03 Personalized Chronic Disease Management: Balancing Apps and Health Coaching

Shivani Goyal, University Health Network, CA

11:15am OS29.04 End-User Engagement: Electronic Self-Care Application for Patients with Heart Failure

Sahr Wali, McMaster University, CA

11:30am OS29.05 A Business Case for Artificial Intelligence in Remote Patient Monitoring

Rick Whittaker, Wellington Waterloo CFDC, CA

11:45am OS29.06 Scaling up Home Telemonitoring: Insights and Lessons from TEC4Home

Heather Harps, TELUS Health, CA

Wednesday, May 30, 2018

10:30am - 12:00pm

OS30 Enabling High Value Analytics

Cambie Room, Conference Level

Track: Clinical Delivery

10:30am OS30.01 Using Business Intelligence for Insights into Healthcare Data

Waqar Haque, University of Northern British Columbia, CA

10:45am OS30.02 Using Advanced Analytics to Predict Clinical Aggression in Mental Health

Mike Wasdell & Bethany Holeschek, Ontario Shores Centre for Mental Health Sciences, CA

11:00am OS30.03 The Impact of Leveraging Analytics to Drive Adoption and Engagement

Elizabeth Keller, OntarioMD, CA

11:15am OS30.04 Predicting Personalized Surgical Outcome Through Analytics & Machine Learning

Kelly Lane, University Health Network, CA

11:30am OS30.05 Data Mining Twitter to Detect Prescribing Cascades: A New Concept

Nishila Mehta, Women's College Research Institute, CA

11:45am OS30.06 From the Boardroom to the Bedside: Transforming Care Through Analytics

Maria Muia, Baycrest Health Sciences, CA

11:00am PS06.02 Txtng for #youthmentalhealth: Provider and #ptexp

Fraser Ratchford, Canada Health Infoway, CA; **Alisa Simon**, Kids Help Phone, CA

11:30am PS06.03 Command Centres: Shining the Light Between the Seams

Zahava Uddin, GE Healthcare, CA; **Peter Bak**, Humber River Hospital, CA; **Jennifer Packer**, Oregon Health & Science University, US

12:00pm - 2:00pm

Lunch Closing Keynote Address

Kitsilano Ballroom, Conference Level

PL04 Workplace Wellness For A Better Bottom Line

Nova Browning Rutherford, Mindfulness Facilitator & Wellness Expert on CTV's The Social

10:30am - 12:00pm

PS06 Digital Health Engagement Through Benefits and Data

Fairview III Room, Conference Level

Track: Executive

10:30am PS06.01 Connected Health Information in Canada: A Benefits Evaluation Study

Simon Hagens, Canada Health Infoway, CA; **Aude Motulsky**, University of Montreal, CA; **Jason Wilson**, Gartner, CA' as presenters

See you in Toronto in 2019!

MAY 26 - 29, 2019 TORONTO, ON

Tradeshow Highlights

e-Poster Presentations

e-Poster Presentations are available for viewing on the tradeshow floor during tradeshow hours, Monday, May 28 and Tuesday, May 29. e-Poster presentation sessions will be scheduled during the following networking breaks on the tradeshow floor:

Monday, May 28	10:00am - 11:30am
Tuesday, May 29	9:30am - 11:00am
Tuesday, May 29	2:00pm - 3:30pm

Please refer to the e-Poster Presentation schedule available via the e-Health 2018 mobile application for details.

Pick up your tradeshow headsets near the e-Poster Stations to tune into the e-Poster sessions.

Hacking Health Vancouver Hackathon @ e-Health 2018

Patients Included in Connected Care

Hacking Health is partnering once again with the e-Health 2018 Conference to include patients in a hackathon set to tackle the pressing healthcare issue of chronic disease management. Participants will work hand-in-hand with patients and clinician experts, building innovative software solutions focused on prevention, home care, and community care!

The challenge will begin with the opening ceremony and project pitches on Sunday, May 27, where the leaders of selected projects will give short pitches explaining the healthcare problems they seek to solve. Participants will also have the opportunity to network with other conference delegates. Teams will then spend the next day and a half designing, building, testing, validating and tuning their prototypes in preparation for the demo competition, working with mentors to refine and improve their solutions. Once the hacking is complete, all teams will be evaluated by an expert panel of judges when the teams present to conference delegates on May 29. Winners from the final presentations will be announced with awards presented shortly after.

Showcase

The Showcase has been an integral part of e-Health since 2007. Building on the outstanding success of the provincial success stories component, introduced in 2014, we will again be featuring some of the great innovations and collaborations between the public and private sector.

Attend a success story demonstration on the Tradeshow floor to hear how jurisdictions have implemented innovative e-Health solutions.

Find the Showcase Presentations highlighted throughout the conference program.

See the mobile app or visit <http://www.e-healthconference.com/program/showcase-2018/> for more details on the Showcase Presentations.

Pick up your tradeshow headsets near the Showcase Theatre to tune into the showcase sessions.

Start Up Zone

The Start Up Zone, previously identified as Innovation Alley, made its debut at the e-Health 2016 conference and is designed to feature new and innovative start-ups and medium-sized companies that are using emerging technology and new delivery models to improve healthcare in Canada.

Start Up Zone

Agile Consent #SZ02

<http://agileconsent.com/>

Our Agile Consent® platform is a next generation consent solution for Healthcare. It integrates with EMRs to transform the paper-based consents to 100% electronic consent, saving money and time.

Bookacaregiver.com #SZ09

<https://www.bookacaregiver.com/>

www.bookacaregiver.com is site that operates by Canada Care Connect Inc. We offer to families and individuals the platform that connect them directly to experts caregivers based on families needs and requirements. Families will search database of caregivers, nurses, housekeepers across Canada and choose the right one.

ExerciseMD #SZ10

<http://exercisemd.com/>

Created by Dr. Henry J. Svec a Clinical Psychologist to assist his patients with using exercise to prevent and fight Brain Health conditions, Type 2 Diabetes, Obesity and Cancers. It is a personal health coaching service leveraging Clinical Expertise with technology.

Gene42 Inc. #SZ08

<https://gene42.com/>

Gene42 Inc. is a medical software company that develops smart software focused on bringing clinical genetics and rare disease patient care into the age of digital medicine. Clinicians at dozens of leading hospital and research institutions worldwide are using our solution, PhenoTips® to focus on what matters most – the patient.

New Health Hippo #SZ07

<https://www.newhippo.com/>

New Hippo is a web and mobile-enabled healthcare platform that supports patient engagement and secure communication throughout the specialist care journey. Our name reflects that we want to be a part of a new Hippocratic Oath, where patients are empowered to play a meaningful role in their own healthcare.

PureITAD #SZ03

<http://pureitad.com/>

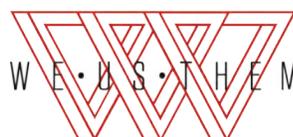

PureITAD brings a wealth of knowledge in serving healthcare organizations. We recognize the unique needs of IT managers in the healthcare community and have developed programs and resources to enable you to implement compliant, secure and responsible IT Asset disposition solutions, while gaining the most value from your equipment.

Sectus Technologies #SZ01

<http://sectustechnologies.com/>

Sectus Technologies is a Canadian Company that represents leading providers of products and services in the Security, Emergency Response and Infrastructure markets. Each member of the Sectus Technologies management team has more than 25 years of experience in those specific markets with strong management experience including leading large international corporations.

WeUsThem #SZ04

<https://www.weusthem.com/>

WeUsThem is an internationally recognized full service agency. From web, mobile, desktop, print and other media to design, development and strategic management of online properties, apps and eBooks, advertising, branding, long term management as well as managing campaigns across industries and consumer profiles, WeUsThem services a global roster of clients.

Exhibitor Biographies

AMPM Mobile Solutions Inc. #308

<http://ampmmobile.com/>

AMPM Mobile Solutions is a leading national Auto-ID Solutions Integrator providing consulting and system integration services for bar code, RFID, mobile computing and wireless networking technologies.

Avizia #200

<https://www.avizia.com/>

Avizia's virtual care solutions are creating new ways for providers to connect with their patients. From in-hospital emergent care to at-home urgent care, Avizia solutions span the continuum enabling telehealth across a comprehensive range of clinical service lines.

BD - Canada #40

<http://www.bd.com/en-ca>

BD is one of the largest global medical technology companies in the world and is advancing the world of health by improving medical discovery, diagnostics and the delivery of care. BD helps customers enhance outcomes, lower costs, increase efficiencies, improve safety and expand access to health care.

Bits In Glass #321

<https://bitsglass.com/>

Bits in Glass is an award-winning technology consulting firm that helps enterprise-level businesses optimize their systems and processes to operate faster and more efficiently. BIG excels at solving complex business problems through the use of innovation and future-forward solutions that give customers a technological edge.

Borden Ladner Gervais LLP (BLG) #128

<http://blg.com/en>

BLG is a leading, national, full-service Canadian law firm focusing on business law, commercial litigation and arbitration, and intellectual property solutions. The Firm's national Information Technology group has experience in providing services to all industries, with particular expertise in healthcare.

Brightsquid Secure Communications Corp #20

<https://brightsquid.com/>

Brightsquid builds compliant digital communication tools that make sharing patient information faster and easier than ever before.

Canada Health Inforoute (Infoway) #5

www.infoway-inforoute.ca

Infoway helps to improve the health of Canadians by working with partners to accelerate the development, adoption and effective use of digital health across Canada. Through its investments, Infoway helps to deliver better quality and access to care and more efficient delivery of health services for patients and clinicians.

Canadian Institute for Health Information (CIHI) #3

www.cihi.ca

The Canadian Institute for Health Information (CIHI) is an independent, not-for-profit organization that provides essential information on Canada's health systems and the health of Canadians. We provide comparable and actionable data and information that are used to accelerate improvements in health care, health system performance and population health across Canada. Our stakeholders use our broad range of health system databases, measurements and standards, together with our evidence-based reports and analyses, in their decision-making processes. We protect the privacy of Canadians by ensuring the confidentiality and integrity of the health care information we provide.

Exhibitor Biographies

Canadian Web Hosting #49

<https://www.canadianwebhosting.com/>

Canadian Web Hosting, the leader in web and cloud hosting in Canada, specializes in providing hosting solutions to business and enterprise-class clients. PHIPA compliant and AT 101 SOC 2 Type II certified, Canadian Web Hosting delivers a secure and scalable service that helps customers meet their specific business requirements.

CDW Canada #205

<https://www.cdw.ca/>

CDW Canada is a leading provider of technology solutions for business, government, education, and healthcare. Ranked the No. 1 solution provider in Canada on the Computer Dealer News Top 100 Solution Providers list.
